

BARBADOS PUBLIC WORKERS' CO-OPERATIVE CREDIT UNION LIMITED

Notes to the Consolidated Financial Statements

For the year ended March 31, 2017

(Expressed in Barbados dollars)

2. Accounting Policies, continued

2.3 Summary of significant accounting policies, continued

e) Financial Instruments, continued

Available-for-sale financial investments, continued

For available-for-sale financial investments, the Group assesses at each statement of financial position date whether there is objective evidence that an investment is impaired. Where there is evidence of impairment, the cumulative loss – measured as the difference between the acquisition cost and the current fair value, less any impairment loss on that investment previously recognised in the consolidated statement of income – is removed from other comprehensive income and recognised in the consolidated statement of income. Impairment losses on equity investments are not reversed through the consolidated statement of income; increases in their fair value after impairment are recognised directly in other comprehensive income.

Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest method, less impairment.

Impairment losses are reported as a deduction from the carrying value of the loan (through an allowance account) or balance and recognised in the consolidated statement of income as a provision for impairment.

Financial liabilities

The Group's financial liabilities include customer deposits, loans payable, reimbursable shares and other liabilities. The Group determines the classification of its financial liabilities at initial recognition. All financial liabilities are recognised initially at fair value and in the case of loans payable, net of directly attributable transaction costs.

After initial recognition, interest bearing loans and borrowings are subsequently measured at amortised cost using the effective interest rate method. Gains and losses are recognised in the consolidated statement of income when the liabilities are derecognised as well as through the effective interest rate method (EIR) amortisation process. The EIR amortisation, if any, is included in the consolidated statement of income.

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires.

f) Reimbursable shares

Reimbursable shares represent amounts due to the estates of deceased members.
